Mr. Thomas Richter
Director of Engineering
Lambert - St. Louis International Airport
P.O. Box 10212
St. Louis, Missouri 63145

Dear Mr. Richter:

Re: In the Matter of City of St. Louis, Missouri
Docket No. 88-F-0012

We have reviewed the October 14, 1988, letter and final report from Messrs. Schreiber and Haug of Lafser & Schreiber, Inc. regarding the above referenced matter. The report reviews and summarizes all work completed in the above referenced matter. In the letter, Lafser & Schreiber certified, pursuant to Section XX.1 of the Administrative Order on Consent entered in this matter, that all work required has been completed.

Based on the information provided by Lafser & Schreiber, the Environmental Protection Agency hereby notifies the City of St. Louis that it concurs that all work contemplated by the Consent Order has been completed.

The Agency wishes to reiterate that it acknowledges receipt of sample data indicating the presence of organic and semivolatile compounds. The City should be advised that this data may indicate ground water contamination caused by sources not addressed by the Administrative Order on Consent.

If you should have any questions regarding this matter, please contact Gary Kepko at (913) 236-2856.

Sincerely yours,

David A. Wagoner
Director, Waste Management Division
